

## Anglais – cycle 2

### Jeu de Kim des aliments

*Matériel nécessaire : 4 séries de 6 aliments ( viandes et poissons ; légumes ; sucreries ; fruits)*

On apprend une série de 6 aliments à l'aide des cartes images, les légumes par exemple :

*There are six vegetables: carrots , peas, beans, potatoes, tomatoes, salad.*

On affiche 5 images et on demande aux enfants :

- *What's missing?*
- *Carrots are missing!*

On peut mélanger 2 séries d'aliments et enlever 1 , 2, 3 images.

On peut proposer aux enfants de jouer par trois : 1 meneur et 2 joueurs. Marque un point celui qui nomme le plus rapidement l'aliment manquant.
